

# EMILY CARRUTHERS, M.A. COLLABORATIVE LEARNING CENTER

## Toilet Training Workshop

During this training, Emily will use the principles and procedures of Applied Behavioral Analysis to teach participants how to implement a successful potty-training intervention. Participants will learn about identifying if their child is ready, reinforcement strategies, visual interventions, schedules, and the importance of consistency.

Emily has been working as an ABA Behavioral Consultant for over 25 years. She has held trainings for The Down Syndrome Association of Central Ohio, Easter Seals, Franklin County Board of DD, Delaware County Board of DD, as well as many private families.

Although her specialty is autism spectrum disorder, she has successfully trained families who have children with many varying developmental and cognitive diagnoses as well as neuro-typical children.

March 2nd, 2026

4:30pm-7:00pm
